**STATEMENT ACCOMPANYING PETITION TO REVIVE AN
UNINTENTIONALLY ABANDONED APPLICATION
PURSUANT TO 37 C.F.R. §1.137(b)**

Mail Stop Petition
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Applicant respectfully requests that the above-identified patent application be revived. Pursuant to 37 C.F.R. §1.137(b), Applicant is submitting herewith:

1. A Reply to the outstanding Office Action dated February 12, 2003;
2. The petition fee of \$650, as set forth in 37 C.F.R. §1.17(m); and

3. The following statement of facts showing that the entire delay in filing the required reply from the due date for the reply until the filing of this petition was unintentional.

STATEMENT OF FACTS

1. The present application was filed by the firm of Volpe and Koenig, P.C. (hereinafter "the firm") on September 20, 2000.

2. The firm received two electronic mail ("e-mail") messages from the Applicant on August 28, 2002 informing the firm that the prosecution of the present application was to be undertaken by different counsel, Jeff Brandt. (Copies of these e-mails are attached as Exhibit A.)

3. In an e-mail exchange on September 4, 2002, Applicant advised the firm to maintain its files, but to forward any correspondence received on the file to the new counsel. (Copies of these e-mails are attached as Exhibit B.)

4. Per the firm's standard operating procedures, the Applicant was informed (via an October 29, 2002 letter, attached as Exhibit C) that the firm's file relating to the present application had been closed.

5. The firm did not receive the Office Action dated February 12, 2003.

6. On August 22, 2003, Applicant informed the firm via e-mail that an Office Action had been issued in connection with the present application, and that

Applicant: Richard B. Himmelstein
Application No.: 09/666,725

Applicant's new counsel had not received the Office Action. (A copy of this e-mail is attached as Exhibit D.)

7. On August 22, 2003, Jeff Brandt received a facsimile copy of the outstanding Office Action. This copy of the Office Action was forwarded to the firm by the Applicant on August 26, 2003. (A copy of the fax cover sheet accompanying the Office Action, indicating both facsimile dates is attached as Exhibit E.)

Respectfully submitted,

Richard B. Himmelstein

Today, literally as I clicked thru to the pto web page to look up Examiner Kazimi's contact info, he phoned to introduce himself.

He is gathering all the cases. It will take him a few weeks to get them together.

He can examine the 1999 and 2000 cases (the real estate and first barter case). He can examine continuation cases (which should include our 2001 cases - he will look at them and let me know). The last-filed case may need a petition to make special before he can pick it up out of sequence.

He was very positive about an interview when he starts to examine the cases. He indicated we could talk about setting one up when he gets the cases together.

Overall, it was a good call.

Richard/Jeff,

We have not received anything for this case. That was not unexpected since we closed our file and removed it from our docketing and follow up systems subsequent to the transfer of the file last October. I could check into it, but since we should no longer be attorneys of record for the case, we may be unable to get any information.

It may be advisable for Jeff to check into it, and if he doesn't get anywhere, we could then contact the PTO. Is that alright with you Jeff? Please advise.

Thanks,
Jay

Jay--

Apparently there was an office action on the Barter Real Estate case in February 2003 and now the examiner says it is going abandoned. Both M&F and Jeff Brandt say it was never transferred to them. Do you know what's up with it?

Please feel free to call Jeff directly and let me know what's going on as well.

DETAILED ACTION

This is in response to a letter for patent filed on September 20th, 2000 in which claim 1 is presented for examination. Claim 1 is pending in the letter.

Claim Objections

1. Claim 1 is objected to because of the following informalities: Applicant discloses "*the internet*" in paragraph 7 line 1. Applicant is advised to delete the word "*the*" in order to overcome Examiner's objection. Appropriate correction is required.
2. Claim 1 is objected to because of the following informalities: Applicant discloses "*such a*" in paragraph 4 line 5. Applicant is advised to delete the word "*such*" in order to overcome Examiner's objection. Appropriate correction is required.

Double Patenting

3. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefore ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The

filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

4. Claim 1 provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claim 1 of copending Application No. 09/921,534. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(c) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

6. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Minton (U.S. PG Pub 2002/0091611 A1).

7. As per claim 1, Minton teaches a bartering system for implementing barter between a plurality of parties each having one or more classes of items available for barter (*data processing system (20) for allowing individual to buy and sell securities*) (see fig 1, 2, 3, page paragraph 0014) comprising means (*server, 316*) for creating a barter order (*buys and sell orders*) (fig 3, page 4 paragraph 0053) including means for designating a selected quantity (*quantity*) of a first class of items (*securities*) to be bartered (*to be traded*) (fig 3, page 4 paragraph 0053), means for

designating a date range (*time*) for transferring title (*transmitting title*) of the selected quantity (*quantity of securities*) of the first class of items to be bartered whereby a barterer may elect to defer the transfer of title to the first class items to a time after the barter order is used to complete a barter transaction or elect to transfer title (*transmitting title*) along with the completion of such barter transaction (*see abstract, page 2 paragraph 0016, claim 16*), means for designating a barter value (*the price*) of the first class of items to be bartered (*fig 3, page 4 paragraph 0053*), and means for designating a second class of items (*securities*) to be acquired (*bought*) (*fig 3, page 4 paragraph 0053*) means for posting (*displaying order*) barter orders (*order to buy and sell*) via the internet (*public network*) to a barter database (*see figs 1, 3 page 4 paragraph 0055, 0056*), means for displaying (*display 96*) via the internet posted barter orders whose first class of items match the second class of items of a barterer's order (*see page 4 paragraph 0056*), and means for selecting (*matching and executing*) a posted barter order from the displaying means to effectuate a barter transaction which combines a barterer's barter order with the selected posted order (*paragraph 0057, 0069*).
